

OLD STANDBY SOLVENT CLEANER is designed to remove dirt, grease, oil, and grime from metallic and non-metallic surfaces. Cleaning is quick and simple without danger of injury to working parts. **OLD STANDBY SOLVENT CLEANER** is ideally suited for use on electric motors (even while running), electronic equipment, ignition systems, typewriters, computers, generators, power tools, etc. It is nonflammable and nonconductive, will not short motors, generators, other electrical equipment or increase fire hazard. **OLD STANDBY SOLVENT CLEANER** easily removes grease and tar, adhesive marks, crayon, lipstick, chewing gum, ink and fresh paint. Excellent for removing spots from upholstery fabrics, rugs, clothing, paint surfaces, metals and other surfaces.

DIRECTIONS

Keep actuator pointed towards dot on valve cap. Remove cap and spray generously over surface to be cleaned until completely wet. Allow solvent to set for a minute, then wipe or rinse off with secondary spray. On heavily encrusted areas, use a brush. Solvent is non-flammable and non-conductive, can be used while motors and equipment are operating.

CAS Numbers: Perchloroethylene 127-18-4, Trichloroethylene 79-01-6, Acetone 67-64-1, Carbon Dioxide 124-38-9.

CAUTION

Vapor harmful. Contains Perchloroethylene and Trichloroethylene. Use with adequate ventilation to keep exposure levels below the 25 parts per million OSHA permissible exposure limit (PEL) during an eight-hour period. Avoid inhalation of spray mist or vapors.

FIRST AID

IF IN EYES: Flush eyes with large quantities of clear, cool water for 15 minutes. Seek medical attention if irritation persists.

IF ON SKIN: Remove contaminated clothing. Flush affected areas with water for 15 minutes. Seek medical attention if irritation persists.

IF INHALED: Remove victim to fresh air. Resuscitate if necessary.
