

POWER UP is a specially designed formulation that stops belts from slipping, adds more power, ease strain on bearings and bushings and stops squealing. This belt dressing works particularly well on leather, rubber, canvas and fabric belts. The results are quick and economical.

DIRECTIONS

NOTE: In many instances protective guards must be removed in order to apply **POWER UP Belt Dressing** properly. In such cases, please use extreme care to prevent accidents. Be sure to replace guards after treatment.

POWER UP has a 360° valve that allows spraying in an upright or inverted position. Apply a little at a time to inner surface of belt while machinery is in motion. Spray using a back and forth motion until the surface is completely wet. On most belts, the spray may be applied to the sheaves, pulleys, or directly onto the belt itself. Repeat occasionally to maintain full power and to optimize belt life.

CAS Numbers: Contains Isoparaffinic Hydrocarbon (64741-66-8) and Liquified

A370

GENERAL MAINTENANCE PRODUCTS

POWER UP Belt Dressing

- 360° Valve
- Stops squealing
- Adds more power
- Stops belts from slipping
- Eases bearing and bushing strain

DANGER: Extremely flammable. Harmful or fatal if swallowed. Contents under pressure. See other cautions of back panel.

KEEP OUT OF REACH OF CHILDREN
NET CONTENTS 12 OZ(S)

CAUTION

Use only in a well ventilated area. Do not use near heat, sparks, or open flame. Avoid contact with eyes or prolonged contact with skin. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120°F

FIRST AID

IF IN EYES: Flush with water for 15 minutes, lifting upper and lower lids. Get medical attention.

IF ON SKIN: Flush affected area with plenty of soap and water. If irritation develops, see a physician.

IF INHALED: Remove to fresh air. Resuscitate if necessary. Get medical attention.

IF SWALLOWED: Do not induce vomiting. Call a physician immediately.
