

ANTI CORRODE II provides a one step solution to battery terminal corrosion removal and acid neutralization. Delivers a powerful, heavy duty foam that clings to battery surfaces, provides extended contact time and neutralizes acid quickly. Helps eliminate power leaks and aids in restoring full starting power.

Features a low odor, non-flammable, water soluble formula. Contains a unique color change indicator that changes to yellow as battery acid is neutralized.

Leaves behind a residual film that provides short term corrosion resistance.

FOR USE ON:

Fleet Cars, Trucks and Buses, Taxi Fleets, Forklifts, Construction,
Agricultural and Marine Equipment, Aircraft, Golf Carts, Postal Vehicles,
Industrial Battery Back Up Systems.

DIRECTIONS

Read all instructions before using this product.

SHAKE WELL. Spray on cables, clamps, terminals, brackets, housings and entire battery surface. (Be sure cell covers are tightly sealed). Product will spray out light yellow and turn red in the presence of acid. Allow foam to work for several minutes, then flush off with water. Follow with a second application. If solution still turns red, acid neutralization process is not complete. Allow to set then repeat. For heavy deposits, agitation with a wire brush may be needed. If sprayed foam remains yellow all acid has been neutralized. Allow product to dry and form residual protective film.

CAS Numbers: Water (7732-18-5), Butane (106-97-8), Sodium Bicarbonate (144-55-8), Ethylene Glycol Monobutyl Ether (111-76-2), Propane (74-98-6), Isobutane (75-28-5).

PRECAUTIONARY STATEMENT

If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Wear protective gloves/protective clothing/eye protection/face protection. Wash thoroughly after handling. Do not pierce or burn, even after use. In case of fire: Use water fog, dry chemical or carbon dioxide to extinguish. If skin irritation occurs: Get medical advice/attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Store in a well-ventilated place. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Dispose of contents and container in accordance with all local, regional, national and international regulations.
