

ROAD GUARD provides a super thick, black, durable, flexible, rubberized film, which seals and acoustically reduces unwanted vibration and sound. Protects metal parts against the harmful effects of water, salt, sand, and road chemicals. Stays pliable in winter cold, yet will not sag, melt, or drip in summer heat. Resists cracking, peeling, and abrasion. Uniform black coating improves the appearance of vehicle and trailer undercarriages.

ROAD GUARD is used by auto and diesel repair shops, garages, taxi companies, construction companies, machine shops, equipment manufacturers, air conditioning maintenance, truck fleet maintenance, aircraft, and public transportation maintenance operations.

DIRECTIONS – SHAKE WELL

Apply to clean, dry surface. Do not use if temperature of can is below 60°F. Spray surface with short, even strokes from a distance of 12 to 14 inches. Several thin coats are better than one heavy coat. After using, invert can and spray a short burst to clear nozzle.

CAS Numbers: Contains Aliphatic Petroleum Solvent (64742-89-8), Toluene (108-88-3), and Liquefied Petroleum Gas (68476-85-7).

DANGER

Danger! Extremely flammable. Vapors may cause flash fire. Vapor harmful. Harmful or fatal if swallowed. Eye irritant. Avoid prolonged contact with skin. Vapors may ignite explosively. Prevent build-up of vapors by opening all windows and doors and use only with cross ventilation. Keep away from heat, sparks, and open flame. **(cont.)**

DANGER (cont.)

Do not smoke while using. Extinguish all flames and pilot lights. Turn off stove, heaters, electric motors, and other sources of ignition during use and until all vapors are gone. Avoid breathing vapors or particles in the air. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120°F.

FIRST AID

IF IN EYES: Flush with plenty of water for 15 minutes. If irritation develops and persists, call a physician.

IF ON SKIN: Flush with plenty of water for 15 minutes. If irritation develops and persists, call a physician.

IF INHALED: Remove to fresh air. Resuscitate if necessary. Get medical aid.

IF SWALLOWED: Call a physician. Induce vomiting only at the physician's recommendation.
