

TECH COAT is a special blend of silicone and wax that provides a slick, non-stick coating that prevents ice and snow from sticking to plows, shovels and other snow removal equipment. Treated surfaces also become water and rust resistant. The coating provides superior release action and lubrication to reduce drag and sticking of many materials to metal and other surfaces.

Spray on snow removal equipment to keep snow and ice from building up on blades, mold boards and wings. Also excellent for use on road signs to keep snow or ice from sticking and allow for easy readability.

Helps increase the efficiency of snow removal, material handling, turf maintenance and road equipment.

In Springtime, spray on blades and under decks of grass cutters and mowers to keep grass from sticking to blades and undercarriage. Lessens drag and increases work efficiency!

DIRECTIONS

Shake well before using. Spray surface from a distance of 12 to 14 inches. Allow a moment for wax coating to set up before putting equipment into operation. After use, invert can and spray a short burst to clear valve.

GENERAL MAINTENANCE PRODUCTS

TECH COAT IN-A-CAN RELEASE COATING FOR BLADES & TRUCK BEDS

- Release Agent
- Prevents Sticking and Rust to Plows, Shovels and Blades
- Reduced Friction
- Protects Metal, Fiberglass, Painted and Plastic Surfaces

NET CONTENTS: 11 OZ. (311 Grams)

DANGER:
EXTREMELY FLAMMABLE
VAPORS HARMFUL
CONTENTS UNDER PRESSURE

DANGER: Contains Hexane (110-54-3), Aliphatic Petroleum Distillates (64742-89-8), Polydimethylsiloxane (63148-89-8) and Liquefied Petroleum Gas (68476-85-7). Use only in well ventilated area. Do not use near heat, sparks or open flame. Avoid contact with eyes or prolonged contact with skin. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120°F.

FIRST AID

EXCESSIVE INHALATION: Remove to fresh air and call a physician. **IF SWALLOWED:** Do not induce vomiting. Get medical attention. **IF EYE CONTACT:** Flush with water for 15 minutes, lifting upper and lower lids. Get medical attention. **IF SKIN CONTACT:** Wash affected area immediately with soap and water. If irritation persists, get medical attention.
