

Green Seal Certification Pending

SANSOLV GREEN RTU, a Ready to Use, eco-friendly cleaner/degreaser/deodorizer is a safer alternative to toxic cleaners, bleaches and solvents. **SANSOLV GREEN RTU** is economical to use and solves a wide variety of maintenance problems.

Some of the many uses for **SANSOLV GREEN RTU** include painted and vinyl surfaces, spot cleaning on floors, industrial machinery and tools, pools, hot tubs, and saunas, formica and fiberglass, counter tops and desks, all plastics, computer terminal cases, transportation equipment, and institutional kitchen surfaces.

DIRECTIONS

Affix the trigger sprayer to the container, as supplied. Adjust trigger to deliver a blast of clinging **SANSOLV GREEN RTU** to the surface to be cleaned. Allow the product to remain on the surface for several minutes to penetrate and emulsify soil. Wipe clean with a moist terry towel to produce a gleaming, streak-free, renovated surface. **SANSOLV GREEN RTU** may be further diluted for additional economy in certain cleaning operations. Adding 1 part **SANSOLV GREEN RTU** to 10 parts water is a good starting point for wide area light duty cleaning.

SANSOLV GREEN RTU may also be applied with the **GMP** Pump-Up Compression Sprayer or the **GMP** Foam Gun.
