

MEGATHERM LT is an inhibited snow and ice destroyer that goes to work instantly generating radiant heat to melt snow and ice without the damaging effects associated with rock salt. **MEGATHERM LT** bores through the ice and forms a brine to melt from the bottom breaking the ice bond allowing easy removal. **MEGATHERM LT** is most economical and cost far less per pound of ice removed at zero degrees Fahrenheit. Each crystal of **MEGATHERM LT** melts 35 times its size of ice. **MEGATHERM LT** IS EFFICIENT...IT WORKS EFFECTIVELY AT BELOW 0°F. **MEGATHERM LT** contains corrosion inhibitors to protect concrete, ceramic, carpeting, cars, fences, spreaders, etc.

MEGATHERM LT does not leave the white residue normally associated with other melters, which is then not tracked into the building. Does not have an adverse effect on lawns or shrubs. Because you use only 1/3 the amount it is very economical.

DIRECTIONS

Spread **MEGATHERM LT** sparingly and evenly over snow and ice using a spreader set at wide broadcast. Use 1/3 the amount of normal melters. A scoop or shovel may also be used to distribute the product. **MEGATHERM LT** used on concrete surfaces that are non air-entrained or not properly air-entrained or porous and have disintegrating concrete, may cause additional scaling or flaking. Do not use **MEGATHERM LT** on concrete that has not cured for at least two years. Apply at ¼ lb. /sq. yd. / ¼" of ice.

NOTE: DO NOT USE THIS PRODUCT ON AIRPORT RUNWAYS OR NEW CONCRETE AND AVOID CONTACT WITH AIRCRAFT. USE GMP ABB AIRPORT BLEND DE-ICER INSTEAD.

GENERAL MAINTENANCE PRODUCTS

MEGATHERM LT

Exothermic Snow And Ice Destroyer

- Works Below 0°F
- Works 40 Times Faster Than Rock Salt
- Melts Ice 35 Times The Size Of Each Crystal
- Economical To Use...Use 1/3 Amount Of Normal Melters
- Inhibited To Provide Corrosion Relief
- When Used Properly:
Non-Tracking
Not Harmful To Lawns & Shrub

KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: 50 LB (S)

CAS Numbers: Magnesium chloride (7786-30-3), potassium chloride (7447-40-7) and trace quantities of mixed potassium and sodium salts (007647-14-5 and 007447-40-7). Avoid contact with skin and eyes. Contact may cause eye injury or skin irritation.

PRECAUTIONS

Use Caution. Harmful if swallowed.

FIRST AID

IF IN EYES: Flush with flowing water immediately and continuously for 15 minutes. Get medical attention.

IF ON SKIN: Wash off with flowing water or shower.

IF INHALED: Remove to fresh air.

IF SWALLOWED: Induce vomiting by giving two glasses of water and sticking finger down throat. Call a physician.
