

ABD is a fast-acting, easy-to-use unique ice and snow destroyer containing a corrosion inhibition system. **ABD** is biodegradable and nonpolluting. **ABD** contains no salts and will not damage concrete, asphalt, floor finishes, or carpeting. **ABD** applied before a storm or at the beginning of a storm will fight ice formation.

NOTE: Do not confuse **GMP's ABD** with other products that may look or claim to be the same. There is only one **ABD**. With substitutes you may sacrifice ice and snow melting power and also risk costly accidents and damage to concrete, plants, and animals.

DIRECTIONS

Spread **ABD** sparingly and evenly over snow and ice using a spreader set at wide broadcast. A scoop or shovel may also be used to distribute the product. **ABD** should be applied at a rate of 0.03 lb/ft²; however, you may apply less or more depending on ice formation and the air and surface temperature. **ABD** IS THE APPROPRIATE **GMP** PRODUCT FOR USE AT AIRPORTS, ON RUNWAYS AND APRONS. **ABD** may be used on concrete surfaces that have not reached full cure if the concrete is of good quality as determined by the American Concrete Institute (ACI) specifications numbers 302.1B, and American Standard Testing Methods (ASTM) specification number C94, which includes a proper air entrained process.

CAS Numbers: Contains carbamide (57-13-6) and Corrosion Inhibitors (N/A).

GENERAL MAINTENANCE PRODUCTS

ABD

AIRPORT BLEND DE-ICER

Snow and Ice Destroyer

- Approved For Use On Airport Runways, Traction Enhancer
- Safe And Noncorrosive To Alclad Magnesium And Cadmium Plated Steel
- No Tracking, Completely Free Of Salts And Environmentally Safe
- Will Not Harm Grass, Soil, Or Vegetation, Contains Concentrated Fertilizer And Corrosion Inhibitors And May Be Applied To New Concrete

KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: 50 LB(S)

PRECAUTIONS

Use caution. Harmful if swallowed. This product is intended for industrial and institutional use only. Avoid contact with skin and eyes. Contact may cause eye injury or skin irritation.

FIRST AID

IF IN EYES: Flush with flowing water immediately and continuously for 15 minutes. Get medical attention if irritation persists.

IF ON SKIN: Wash off with flowing water or shower.

IF INHALED: Remove to fresh air.

IF SWALLOWED: Do not induce vomiting. Give several glasses of milk or water to dilute stomach contents. Get immediate medical attention.
