

MULTICUT F-200 is formulated for operations requiring superior cooling and load carrying characteristics. It is one of the first really high tech, low cost, general purpose cutting fluids designed to provide maximum operation with reduced operational costs for ferrous metals machining only. **EML'S MULTICUT F-200** is specially formulated to prevent machine and part rusting because of its stable emulsion characteristics. It can be used in either hard or soft water and still maintains a stable emulsion. In its undiluted form it is freeze/thaw stable.

PRECAUTIONS

Misuse of empty containers can be hazardous. Empty containers can be dangerous if used to store toxic, flammable, or reactive materials. Cutting or welding of empty containers might cause fire, explosion, or toxic fumes from residues. Do not pressurize or expose to open flame or heat. Keep container closed and drum bungs in place. **KEEP OUT OF THE REACH OF CHILDREN.** Do not ingest.

CAS Numbers: Contains Petroleum Oil (64742-54-7).

PRODUCT #LUM101

MULTICUT F-200 Metalworking Fluid

- Excellent Surface Finish
- Superior Rust Protection
- Extended Tool Life
- Increased Cooling Capacity
- Easily Maintained
- No Monday Morning Odor
- Contains Biocide For Odor Control

KEEP OUT OF REACH OF CHILDREN
NET CONTENTS: 5 Gallon(s)

MULTICUT F-200 concentrations are monitored by sulfonate titration/refractive index and the operation ratios are optimum when used at a 5% to 10% solution.

MIXING INSTRUCTIONS:

1. Add concentrate water.
2. When adding concentrate to water, mixture should be vigorously agitated.
3. Never add water to the concentrate as an inverted emulsion will result.
4. Always observe proper care when dealing with chemical concentrates consult MSDS provided for proper handling information.

FIRST AID

IF IN EYES: Flush with large amounts of water for at least 15 minutes or until irritation subsides.

IF ON SKIN: Remove any contaminated clothing and wash skin with soap and warm water.
